PALMYRA'S TOWN HISTORIAN'S REPORT FOR 1975

This past year started very quietly but as the year progressed, it seemed as if there is a renewed interest in local history.

Early in the Spring I attended a meeting of the Bi Centennial Committee of Wayne County. Those, attending a meeting from Palmyra, were urged to begin procedures to organize a Bicentennial committee and become eligible to be a Bicentennial Town. After a slight misunderstanding, a meeting was held, a committee was formed with representatives of the organizations and interested persons as members, and the application was sent in. John ^{Sheehan} ~~Sheehan~~ was elected chairman and I as secretary- treasurer. Since that time the committee has met monthly. It was decided that this committee would not take charge of any event but would help the local organizations present them. We are planning a special July 4th weekend at a minimal expense with the residents taking charge.

Although I understand Historians are not required to look up requests on genealogy, I do try to help the people who write me. As I have only a file at the library and the cemetery records, it is not time consuming.

In June Mrs. Bess Atlas stopped to see me. She was writing a play on Wayne County and wanted information of the Hicks family and the Mormons. I took time off from work to take her to the library where she found information that she could use in the play. She was especially looking for data on the Hicks family who played an important part in the separation of the Quaker Church.

Mrs. C.C. Nesbitt has a list of the names of the people buried in the Swift family. Regrettably it has only the names of the existing tombstones. I now have a copy which helps in genealogy.

For 60 or 70 days I exhibited pictures of the old Erie Canal in Palmyra including the aqueduct, the locks etc. *in a store window*

Being Town Historian I ^{try} ~~try~~ to attend any local or county meeting pertaining to history. As a member of Historic Palmyra, I've attended some of the workshops in assembling the pages, pages of the copies of the History of Palmyra by Thomas Cook. This book gives data on the houses in Palmyra who have owned them, historical facts, and interesting anecdotes. It is an excellent reference on Palmyra. We are also in

the process of marketing a n ~~original~~/1001// original Jenny Jeromedoll. Another project of ~~Miss~~ Historic Palmyra is the opening of a Coverlet Museum on July 4, 1976. This Museum will have approximaely 2 00 coverlet on ~~display~~ display. I have taken part in both of these projects.

As it gets nearer 1976, more people are becoming interested in local history. As a result I am having more inquiries. This past month a Girl Scout leader phoned me for information for her troop. It was such a beautiful day she changed her plans and had decided to take her girls to visit the Swift Cemetery. With the list of names of the tombstones, I picked out the names of important families that they would find there and gave her the contributions they had made in the settling of Palmyra: for example Gaines Robison, the first doctor; Doshia Sawyer the first school mistress, and of course, John Swift. That was a lengthy telephone call.

In November Mrs. Herbert Jackson called about some farm houses, north of Palmyra, where early settlers lived. That afternoon she and I took a tour of the area to check the location of some of them. We both learned a great deal and it was a most enjoyable afternoon.

Respectfully submitted

OFFICIAL
NEWSPAPER
DISCUSSION

David Lyon, Chairman of the Highway Committee, reported on latest developments concerning the Stop sign at Division Street and Quaker Road. Mr. Lyon attended the Village Board meeting Monday, January 19th. Several different views on recommendations made by the New York State Department of Transportation were offered. David Lyon reported that the recommendation made to him involved the placing of 3 double arrowed signs on the curve. Representatives from the Department of Transportation and Philip Rice talked with Supervisor Aplin and Town Attorney Paul Rubery and implied that the Town could take what measures they felt best and seemed to have no objection to the Stop sign. Mr. DeBrine reported on correspondence and conversations he has had in regard to this sign. The Town Attorney submitted a suggestion concerning the establishment of a Lighting District, to check with Garlock and Mr. & Mrs. Lord. The Town has received no formal complaints on the sign. Discussion also involved the number of arrests made in that area for speeding and failure to stop, moving "Stop Ahead" sign back to the Village side of the Canal bridge, a suggestion that a letter be sent to Garlock, Inc. in care of Lloyd Greene in regard to a Lighting District.

Subject: The Advantage of Having an Industrial Park

With the increase of more unemployment in the area, I believe it is a priority issue that the Village or Town select an area for an Industrial Park. Macedonia is pushing for small industries. It is now a definite possibility that if the Village receives grant money for the improvements they want, that a hardship for some taxpayers in the Village will become relevant, unless an effort is made to expand water and sewer lines for more homebuilding in the Village and site chosen for an Industrial Park in the town with expansion of water and sewer lines for the park site. Palmyra needs new businesses and small manufacturers to put people back to work. I would suggest the easiest way to get started on the park site would be to write a letter to Colt Industries to see if they would be willing to start up an Industrial Park here with their diversified industries. If they are not interested, then the next step would be to obtain a site in the Town, advertise it in the National C of C Trade Paper and in the Wall Street Journal. Perhaps the Wayne County Ind Development would be interested in backing the project if it means no increased cost to the Town. At least they could pay for the advertising of the site in nationwide and world-wide newspapers. The WSJ is read by hundreds of millionaires throughout the world. Who knows, maybe we could obtain a Japanese company that wishes to manufacture transistor radios in the United States.

Ray Peterson has indicated that the Village would possibly be interested in obtaining additional grant money to finance the start of an Industrial Park with the Village line expanded into an undeveloped area East of Howell Street and South of Vienna Street. However, the Village has not yet committed itself. I will have to see Mr. Peterson or the Village at their next meeting. I realize that the Town does not wish to get involved in any Federal funding for such a park site. The prospective manufacturers would probably have to assume the costs for leveling off land, street, lot and parking lay-outs themselves. However, it would be more difficult or even the purpose would be defeated to obtain industries for the park - So, think it over, in the meantime the cost of taxes is going up and up.

At present with the proposed grant money going for Village improvements and without the Urban Renewal area built up and sold off to new landlords this means there will be an increased burden for the existing taxpayers. Even with the Urban Renewal area bringing in extra income to broaden the tax base, this still means that the unemployed will not go back to work until more business and industry is brought into town. If nothing is done

now you may see more home owners and business moving out of town. This is something that can be done if an effort is made to try.

G. T. Griffin

P.S. - Also a search should be made to try and locate a commercial business that wants to start a county-wide re-cycling center here.

February 10, 1976

Town Board
Town of Palmyra
Main Street
Palmyra, New York

Gentlemen:

At the Special Board Meeting of February 3, 1976, the proposed Mobile Home Ordinance was discussed in some detail. In my judgement, the Town will have a workable and reasonable ordinance with the suggested changes that were presented at the above mentioned meeting.

It should be noted that this ordinance is the result of a great deal of effort, especially from Paul Rubery and Glenn Wideman. While at the meeting, I minimized the effort of the Planning Board, second thoughts have tempered my opinion and I'm sure that each member devoted as much time as he could to arrive at a workable ordinance.

The only area of concern to some members of the Town Board and myself is Section 503. In order to arrive at a solution to pre-existing mobile home parks, one must consider several aspects of the purpose of any ordinance.

First, technically, this proposed ordinance falls into the category of a Zoning Ordinance for Mobile homes. Historically, Zoning is a tool of planning, and zoning regulations serve for the implementation of a comprehensive plan.

While I agree that many of the existing mobile home parks present some problems as to fire hazards etc., because, primarily, of concentration of units; it does follow that strict application of the proposed ordinance would definitely impose a hardship on some existing parks.

More specifically, zoning or for that matter, most ordinances are drawn up to regulate future development and minimizing existing ills. Accordingly, it is essential that we do not regulate existing mobile home parks to the point that we force them to close.

We must remember that the purpose of this ordinance is to promote the health, safety, morals and general welfare of the people of the Town of Palmyra, not to force small business men into early retirement.

By including existing mobile home parks in only the following articles and sections, I feel that we can adequately police these parks. Between this ordinance and proposed county measures (Health Dept.), any problems with existing parks will be ferreted out and corrected.

Articles - 1,2,3,8,9,10,11,13,14,15,16

- 2 -

Sections - 502 Include as is.

Section - 503 Change 2nd paragraph to read:

The applicable standards that effect mobile home parks that existed prior to the adoption of this ordinance shall be - Articles 1,2,3,8,9,10, 11,13,14,15,16 - Sections - 502, 503, 504, 603, 604, 612, 700, 701, 702 and 705.

Section - 602

Section - 603 Include paragraph to read:

2. Separation of mobile home units located in an existing mobile home park shall be maintained. No unit shall be moved closer to an existing structure than the distance that existed at the time of enactment of this ordinance. Any new structures or units shall meet the requirements of paragraph one (1) of this section. Each existing mobile home park, upon the enactment of this ordinance, shall submit a drawing showing lay-out and location of each unit.

Section - 701 Include 4th paragraph to read:

An established and existing private sewage disposal system shall be subjected to an annual inspection and approval of the Zoning Enforcement Officer.

Respectfully submitted,

(Bruce A. Wideman)
Town Planning Board Member

February 10, 1976

The Town Board and the Town Attorney offered suggestions for solutions to these problems - the drainage problem was referred to the Highway Committee and it was suggested that a letter to the Church officials might solve the litter problem.

INSTRUCTIONS

This form provides a convenient means of passing resolutions by a corporation's Board of Directors for establishing and maintaining checking and borrowing accounts with us.

It is suggested that in designating authorized signatures, the authority to sign checks, drafts, notes, etc. be given to the designees as corporate officers and not to the named persons acting as such officers.

For example, such authority should be given to the President or Treasurer of the corporation rather than to John Smith, President, or Frank Brown, Treasurer. Of course, names must appear alone where the designated individuals have no official status (title).

Thereafter, if there is a change in incumbency involving no change in signing authority, delivery of a certificate of incumbency (notification to the bank of the names and signatures of the new officers, over the certificate of the Secretary, with the corporate seal impressed) is sufficient, together with signature cards.

It is advisable to avoid designations that are susceptible of varying interpretations—signing authority should be clearly stated. Some possible combinations for insertion in the blank spaces in paragraphs 2 and 4 are as follows:

President, or Vice President or Treasurer
President alone, or any Vice President when also signed by either the Treasurer or the Secretary
Any one of the following—President, Vice President, Treasurer
Any two of the following—President, Vice President, Treasurer, Secretary
Any one of the following—President, Vice President, Treasurer, together with any one of the following—Secretary, or John Smith, or Wm. Brown.

It is emphasized that the above are merely illustrative examples. Naturally any designation to fit your needs is satisfactory to us provided it is clearly stated to avoid confusion.

It is also emphasized that designations may properly differ in paragraphs 2 and 4. For example, you may wish to authorize one signature only for checks drawn against your account, but require more than one signature for borrowing and other transactions.

This form may be used to designate authority to sign checks (paragraph 2) or to borrow or discount obligations or carry on other banking transactions (paragraph 4), or any one or more, depending upon your needs. In the interest of simplification of your files and ours, it is helpful to include all signing authorities in one set of resolutions.

REPORT OF
TONY
MALONE RE:
LANDFILL
SITE

Town Engineer Tony Malone appeared before the Board to report on the Landfill study. Before starting on that report, Mr. Malone brought to the attention of the Town Board, a study which the Village of Newark is undertaking in regard to an application to the Federal Government for funds to do a Plan of Study concerning the ^{Geographical} ~~Planning~~ area in respect to Sewage Treatment Facilities for Newark and possibly surrounding areas. Mr. Malone indicated on a map of the Town of Palmyra and the Town of Arcadia the area being considered for this study. In bringing this project to the attention of the Town of Palmyra, it in no way requires any action or commitment on the part of Palmyra, it is merely for informational purposes. Mr. Malone then turned to his report in regard to the study on the alternate landfill site on the South side of Garnsey Road. He met with Frank Clark of the Department of Environmental Conservation in Avon to review the basic requirements for Palmyra to acquire the permit to operate the landfill on the South side of Garnsey Road. It is a small site and the question came up as to how many years it would serve Palmyra. Mr. Malone stated that the cost for the study and for submitting the application to Avon would be an estimated price of \$5,000. Discussion followed concerning the size of a future site, which Mr. Malone suggested should be 25 - 50 acres to cover a period of 15 to 20 years. Nelson Cook stated that the Wayne County Sounding Board meeting in July would cover Landfills - County and other possibilities. Discussion continued in regard to the correct boundary lines at the present landfill site which could mean more time at the present site. There is some question concerning the back line (R.R. right of way). It was decided that all of this information be referred to the Landfill Committee. A motion was made by Glenn Wideman, seconded by Nelson Cook to authorize the Landfill Committee to expend the necessary funds for re-staking the back-line (R.R. right of way) at the Landfill site. Motion passed with 3 ayes and no nos.

William Deys, Voting Machine Custodian, reported to the Town Office that a problem had developed with one of the machines during the School Election. He felt the machine should be looked at to determine repairs needed. The Board agreed that Mr. Deys should contact the Thomas Huhn Company.

MOTION RE:

SIGNALS

The subject of warning lights and/or flashers at the Hogback Hill Road Crossing again came before the Board. A motion made by Glenn Wideman, seconded by Roy Aplin authorized a letter of intent by the Town Attorney to be sent to the Department of Transportation in Syracuse. Motion passed with 3 ayes and no nos.

The Public Hearing scheduled for 7:30 P.M. Wednesday, November 3, 1976 to review the Preliminary Budget of the Town of Palmyra for the fiscal year beginning January 1, 1977 was opened by Supervisor Aplin at 7:30 P.M. Town Officers present were: Supervisor Aplin, Town Councilmen Edwin Wheeler, Glenn Wideman, Nelson Cook and David Lyon, Town Highway Superintendent James DeBrine, Town Attorney Paul Rubery, Assessor Robert Kirchhoff and Town Clerk Betty Stubbings. Interested persons attending were: Robert Jagger, Judson Roney, Mary Lou Wilson, Bill Contant, Frank DeAngelo, Lloyd Green, Roger Shaner, Paul Burkhardt, Fred & Betty Alderman, George Contant, Harlin & Ann Tyler, Bruce & Thelma Wideman.

The Proof of Publication was read by the Clerk.

Supervisor Aplin asked if there were any persons who wished to speak in favor of the Preliminary Budget. There were none. The Supervisor then asked if there were any persons who wished to object to the Budget or any part thereof.

Persons who asked to speak in regard to the Budget or specific items in the Budget are as follows:

Judson Roney commented on the Assessor's position and salary.

Lloyd Green, representing the Village Board and Village taxpayers, presented and read a petition requesting that Village taxpayers be exempted from Highway Items III and IV - General Fund of the Budget.

A motion that this petition be received, filed and made a part of the minutes was made by Glenn Wideman, seconded by Edwin Wheeler and passed with 5 ayes and no nos.

George Contant presented a copy of the above mentioned petition with signatures of Village taxpayers.

Fred Alderman spoke in regard to the exemption of Highway Items III and IV and Section 277 of the Highway Law.

George Contant stated that the Village has been taken advantage of in the past and the Legislature is trying to correct in some way by making it possible but not mandatory for the Towns to grant this exemption to Villages.

David Lyon spoke of Consolidation Committee attempts in the past which have not been successful.

Lloyd Green spoke again in regard to the exemption and the Highway Law.

Glenn Wideman questioned how many other Towns have granted this exemption. George Contant responded by reading a list of Towns in New York State who have done so.

Robert Jagger posed the question: - Is the Highway Tax the only one the Village pays? ~~XXXXXX~~

Judson Roney commented on Town plows raising plows while driving on Village Streets instead of plowing while getting from one Town Road to another.

Lloyd Green suggested the Village and Town Committees get together to solve some of these overlapping services.

Frank DeAngelo questioned the Board in regard to Fire and Water Services.

George Contant commented on the Water Service to the Town.

Lloyd Green questioned when the Village could expect an answer in regard to the exemption of Items III and IV. Supervisor Aplin stated that the matter would hopefully be discussed at the next regular Town Board meeting.

Fred Alderman stated that the Library will be requesting and increase of \$1500 for 1977.

George Contant commented in regard to the salaries of the Town Councilmen and spoke of the comparison with other towns. Glenn Wideman responded to Mr. Contant by giving a comparison of 8 towns in the Western part of the County. David Lyon also responded in regard to Town Councilmen's pay and the work involved.

Roger Shafer commented on salaries, in favor of raises for the Highway Superintendent and the Town Clerk but objecting to raises for the Councilmen and the Assessor.

Mary Lou Wilson, Village Trustee, inquired about the amount in the Budget for the Senior Citizens.

Thelma Wideman stated that the taxpayers should be informed concerning the time spent doing the work required as Councilmen and Board members.

Lou Ziegler asked for the Estimated Tax Rate for 1977 - Village Rate is \$3.12 (up \$.20) and the Town Rate is \$6.41 (down \$3.61).

Glenn Wideman offered an average increase in the Tax Rate since 1973.

Frank DeAngelo commented on the County Tax Rate and raised the question of how the Welfare is going to be handled.

Ann Tyler and Roger Shafer commented on salaries.

Councilman Wideman and Supervisor Aplin informed those attending that the Assessor's salary in the Preliminary Budget is \$5,000 not the amount of \$11,500 as posted in the Tentative Budget.

Town Board members commented on salaries, duties, hours spent and Public Service in general.

Assessor Robert Kirchhoff defended the salaries and duties of the Board members and stated that the request for raises for the Councilmen would cost the average taxpayer in the Village of Palmyra about \$.25 per year.

Supervisor Aplin declared the Public Hearing closed at 8:55 P.M..

Mr. Moran spoke in his own behalf, explaining the type of work to be done and the number of people involved. Supervisor Aplin asked for comments from those attending. Ralph Collier asked the type of work to be done on the site, Mrs. Hutter asked what hours the shop would be open and Mr. Moran replied that business would be conducted between 10 A.M. and 7 P.M., 6 days a week maximum. Ralph Collier stated that he had no objections to this type of business. Mr. Hubright questioned the amount of sawdust or dust and Mr. Moran stated there would be very little. The Clerk read the recommendations of the Planning Board. There being no further comments either pro or con, Supervisor Aplin closed this Public Hearing at 7:40 P.M. and opened the 2nd hearing - the request of Thomas Costich for a Special Authorization to open a gravel pit on Route 21N, property located in an Agricultural Zone. Henry Nesbitt, Attorney for Thomas Costich, gave the background on the property, explained where the operation of the gravel pit would be. This would not be a case of excavating but would be the removing of hills on the property. Mr. Nesbitt assured the concerned neighbors that any requirements necessary to control dust or other annoyances would be followed. Ralph Collier questioned the amount of hill involved, control of dust, equipment to be used. Florence Collier questioned working days and hours and Mr. Costich replied that a normal working day would be 8:00 A.M. to 4 P.M., 5 days a week. Mrs. Collier was also concerned with the value of property if a gravel pit was in view from their property. Assessor R. Kirchhoff stated that view is a part of the consideration in establishing an assessment. Mrs. Hutter questioned the testing of property to determine the amount of gravel involved. Neighbors questioned where the operation would be on the property. Supervisor asked Mr. Costich the scope of the business and Board members questioned Mr. Costich in regard to the operation of the gravel pit. Future plans include the building of a residence. The recommendations of the Planning Board were read by the Clerk. This hearing was closed at 8:07 P.M..

Town Councilman Glenn Wideman questioned the number of trucks on the premises if and when the company added truck rentals at this site. Mr. Jones estimated in 2 or 3 years time as many as 10 - 15 daily rental trucks, mainly tractors could be on the premises. When questioned about the safety as far as traffic is concerned, he stated that the Company looked at the safety aspect in regard to entering and exiting the area and found there is good view both directions and plenty of space. The Town Attorney reported that he had received some complaints from residents of Marquart's Mobile Manor concerning the unlighted corner of Macedon Center Road and Maple Avenue. These roads are County roads and not under the Town's jurisdiction but Supervisor Aplin offered to write a letter requesting the County to check into the possibility of installing a light at that intersection. The lighting at the corner of Route 31 and Hammond Road also was discussed and the necessity for 3 lights at that intersection was questioned.

Supervisor Aplin reported on the latest developments in regard to our lease for the office with Marine Midland Bank - Rochester. He is still negotiating and no lease has been submitted to the Town at this date.

1976 Annual Report of Palmyra Town Historian

The Bicentennial year proved to be busy and most interesting. With so many inquiries I learned a great deal more about Palmyra.

The first request came from the Rose Lion's Club. They were planning a Wayne County calendar and wanted important Palmyra Dates. By using several histories of Palmyra, I was able to compile quite a long list. However, it was regrettable that some of the early dates could not be used because there was not the specific day given.

I attended most of the Palmyra Bicentennial committee meetings and acted as secretary and treasurer. Monthly letters were sent out to the various local organizations to notify them of the meetings. This committee planned the July 4th celebration and the Time Capsul that has been buried and hopefully to be dug up in 2076. I helped collect material to put into the time capsul.

Wayne County Historical Society sent me approximately 50 pictures with texts to edit for their book, Wayne County: The Aesthetic Heritage of a Rural Area which will be released soon. I was pleased to find that so many of the local buildings still existed. They also asked for a brief history of Palmyra that I did write for them. However, it was returned to me because it was too brief. I am now rewriting it and including places that tourists will be able to visit. However, my time was not wasted as Historic Palmyra used the article.

Mrs. Herbert Jackson, Newark Town Historian, has been writing stories on different houses and farms for the Newark paper. As a number of these were located in the Town of Palmyra, I spent considerable time researching the people who had lived in those places, their relatives, and interesting facts concerning them.

One of the Girl Scout troops asked me to give a talk on Palmyra. As I thought slides would make a more interesting presentation, I asked David Tabor to take charge of the program. His talk on the history of Palmyra gave the girls much information.

James Durfee wrote me about the Durfee cemetery on North Creek Road. He is interested in having the grave of Gideon Durfee, one of the first settlers of Palmyra and Revolutionary soldier, marked. I was amazed how the stones have deteriorated so that they cannot be read. As his wife's stone is still identifiable, the grave could be marked at the present time.

In June and July because I am historian and had a sister who helped start the museum at the library, I helped pack and move the historical artifacts. As the library trustees felt that they need room for library purposes, they gave all the things to Historic Palmyra. At the present time everything is being stored, but this coming summer it is hoped to have everything displayed at the newly acquired house now located on Market Street.

In June I attended the Bicentennial program of the East Palmyra Presbyterian Church. I enjoyed it so much. Their displays were attractive and informative and I learned a great deal about that area of the town.

For the July 4th edition of the Palmyra Courier, I enlarged the list that I had compiled for the Rose Lion's Club. I added the dates that were listed by month and also updated it to the most recent times.

For Canal Days the Palmyra Garden Club had their annual house tour. This year I was asked to write up the histories of the 8 houses. This meant to find out the owners, something about their lives, and the interesting types of architecture. This was printed in the Palmyra paper.

I was also contacted about ~~fixing~~ farms on which a family had lived for at least one hundred years. With much telephoning I only found two - the Goldsmith farm on the Marion Road and the Walton farm on Quaker Rd.

In November Historic Palmyra sponsored a Canal Walk with Professor Grosso of the Rochester Community College as leader. Approximately 50 people took part, many who lived in other localities. We went along the towpath of the Erie Canal from the canal locks to Park Street. He pointed out the different construction, the change over bridge, etc.

In December the King's Daughters Library celebrated its 75th year of service. I was asked to write an article for the Palmyra paper. By using several articles on the King's Daughters Society and interviewing several people, I was able to collect quite a bit of information about this important ~~part~~ service to Palmyra.

My most frustrating work is trying to find information for people interested in ~~obtaining~~ obtaining information about their families. This year so many of the requests were for birth or marriage certificates. As most of them were in the early 1800's, this is impossible. By using cemetery records and the file at the library, names of families can sometimes be found.
